

IN THE CLAIMS:

Please amend Claims 3, 4, and 7-10, and add new Claims 11-36 as follows:

1. (Original) An anti-soiling detergent composition, containing:
(A) 0.05 to 10 mass% of a polyetheramide-modified organopolysiloxane and/or amino-modified organopolysiloxane;
(B) 0.1 to 30 mass% of at least one type of surfactant selected from nonionic surfactants, amphoteric surfactants, and cationic surfactants;
(C) 0.1 to 20 mass% of a metal chelating agent; and
(D) water.
2. (Original) The anti-soiling detergent composition according to claim 1, containing (E) 0.01 to 5 mass% of a thickener in addition to components (A) to (D).
3. (Currently Amended) The anti-soiling detergent composition according to claim 1 ~~claims 1 or 2~~, containing (F) 0.1 to 20 mass% of a water-soluble solvent in addition to the above components.
4. (Currently Amended) The anti-soiling detergent composition according to claim 1 ~~claims 1 to 3~~, wherein component (A) is a polyetheramide-modified organopolysiloxane.
5. (Original) The anti-soiling detergent composition according to claim 4, wherein the polyetheramide-modified organopolysiloxane of component (A) is a polyetheramide-modified organopolysiloxane expressed by average compositional formula (1)

(where a and d are zeros or positive numbers; b and c are positive numbers such that $1.9 \leq a + b + c + d \leq 2.2$; R^1 is a hydrogen atom, a hydroxyl group, or a substituted or unsubstituted monovalent hydrocarbon group with 1 to 6 carbon atoms; R^2 is a

Preliminary Amendment
Attorney Docket No. JD-249-US

monovalent hydrocarbon group with 1 to 6 carbon atoms; Q¹ is a group expressed by general formula (2) or (3)

[Chemical Formula 1]

R³ and R⁵ are divalent hydrocarbon groups with 2 to 18 carbon atoms; R⁴ and R⁶ are hydrogen atoms or monovalent hydrocarbon groups with 1 to 6 carbon atoms; X is a group expressed by general formula (4)

e and *f* are each 0 or 1; *g* and *h* are zeros or positive integers of 1 or greater; R⁷ is a divalent hydrocarbon group with 2 to 18 carbon atoms; R⁸ is a divalent hydrocarbon group with 3 to 10 carbon atoms; Y is a hydrogen atom, a monovalent hydrocarbon group with 1 to 18 carbon atoms, an acyl group, or an isocyanic acid group; Q² is a group expressed by general formula (5)

i and *j* are each 0 or 1; *k* is a positive integer of 1 or greater; *m* is zero or a positive integer of 1 or greater; R⁹ is a divalent hydrocarbon group with 2 to 18 carbon atoms; R¹⁰ is a divalent hydrocarbon group with 3 to 10 carbon atoms; and Z is a hydrogen atom, a monovalent hydrocarbon group with 1 to 18 carbon atoms, an acyl group, or an isocyanic acid group; however *d* and *g* cannot both be zero at the same time).

6. (Original) The anti-soiling detergent composition according to claim 4, wherein the polyetheramide-modified organopolysiloxane of component (A) is a polyetheramide-modified organopolysiloxane expressed by average compositional formula (6)

(where *a* and *d* are zeros or positive numbers; *b*, *c*, and *e1* are positive numbers such that $1.9 \leq a + b + c + d + e1 \leq 2.2$; R¹ is a hydrogen atom, a hydroxyl group, or a

Attorney Docket No. JD-249-US

substituted or unsubstituted monovalent hydrocarbon group with 1 to 6 carbon atoms; R² is a monovalent hydrocarbon group with 1 to 6 carbon atoms; Q¹ is a group expressed by general formula (2) or (3)

[Chemical Formula 2]

R³ and R⁵ are divalent hydrocarbon groups with 2 to 18 carbon atoms; R⁴ and R⁶ are hydrogen atoms or monovalent hydrocarbon groups with 1 to 6 carbon atoms; X is a group expressed by general formula (4)

e and *f* are each 0 or 1; *g* and *h* are zeros or positive integers of 1 or greater; R⁷ is a divalent hydrocarbon group with 2 to 18 carbon atoms; R⁸ is a divalent hydrocarbon group with 3 to 10 carbon atoms; Y is a hydrogen atom, a monovalent hydrocarbon group with 1 to 18 carbon atoms, an acyl group, or an isocyanic acid group; Q² is a group expressed by general formula (5)

i and *j* are each 0 or 1; *k* is a positive integer of 1 or greater; *m* is zero or a positive integer of 1 or greater; R⁹ is a divalent hydrocarbon group with 2 to 18 carbon atoms; R¹⁰ is a divalent hydrocarbon group with 3 to 10 carbon atoms; and Z is a hydrogen atom, a monovalent hydrocarbon group with 1 to 18 carbon atoms, an acyl group, or an isocyanic acid group; *d* and *g* cannot both be zero at the same time; Q³ is a group expressed by general formula (7) or (8)

[Chemical Formula 3]

R³ and R⁵ are divalent hydrocarbon groups with 2 to 18 carbon atoms; and R⁴ and R⁶ are hydrogen atoms or monovalent hydrocarbon groups with 1 to 6 carbon atoms).

7. (Currently Amended) The anti-soiling detergent composition according to claim 2 ~~any of claims 2 to 6~~, wherein the thickener of component (E) is at least one compound selected from among thickening polysaccharides, carboxyvinyl polymers, crosslinked polyacrylic acids, and salts thereof.

8. (Currently Amended) The anti-soiling detergent composition according to claim 3 ~~any of claims 3 to 7~~, wherein the water-soluble solvent of component (F) is at least one compound selected from among alcohols, glycol ethers, and terpene-based hydrocarbon solvents.

9. (Currently Amended) The anti-soiling detergent composition according to claim 1 ~~any of claims 1 to 8~~, wherein the anti-soiling detergent composition is used in hard-surface applications.

10. (Currently Amended) The anti-soiling detergent composition according to claim 1 ~~any of claims 1 to 9~~, wherein the anti-soiling detergent composition is used in applications involving restrooms, washstands, baths, and other damp locations.

11. (New) The anti-soiling detergent composition according to claim 2, containing (F) 0.1 to 20 mass% of a water-soluble solvent in addition to the above components.

12. (New) The anti-soiling detergent composition according to claim 2, wherein component (A) is a polyetheramide-modified organopolysiloxane.

13. (New) The anti-soiling detergent composition according to claim 3, wherein component (A) is a polyetheramide-modified organopolysiloxane.

14. (New) The anti-soiling detergent composition according to claim 3, wherein the thickener of component (E) is at least one compound selected from among thickening polysaccharides, carboxyvinyl polymers, crosslinked polyacrylic acids, and salts thereof.

15. (New) The anti-soiling detergent composition according to claim 4, wherein the thickener of component (E) is at least one compound selected from among thickening polysaccharides, carboxyvinyl polymers, crosslinked polyacrylic acids, and salts thereof.

16. (New) The anti-soiling detergent composition according to claim 5, wherein the thickener of component (E) is at least one compound selected from among thickening polysaccharides, carboxyvinyl polymers, crosslinked polyacrylic acids, and salts thereof.

17. (New) The anti-soiling detergent composition according to claim 6, wherein the thickener of component (E) is at least one compound selected from among thickening polysaccharides, carboxyvinyl polymers, crosslinked polyacrylic acids, and salts thereof.

18. (New) The anti-soiling detergent composition according to claim 4, wherein the water-soluble solvent of component (F) is at least one compound selected from among alcohols, glycol ethers, and terpene-based hydrocarbon solvents.

19. (New) The anti-soiling detergent composition according to claim 5, wherein the water-soluble solvent of component (F) is at least one compound selected from among alcohols, glycol ethers, and terpene-based hydrocarbon solvents.

Preliminary Amendment
Attorney Docket No. JD-249-US

20. (New) The anti-soiling detergent composition according to claim 6, wherein the water-soluble solvent of component (F) is at least one compound selected from among alcohols, glycol ethers, and terpene-based hydrocarbon solvents.

21. (New) The anti-soiling detergent composition according to claim 7, wherein the water-soluble solvent of component (F) is at least one compound selected from among alcohols, glycol ethers, and terpene-based hydrocarbon solvents.

22. (New) The anti-soiling detergent composition according to claim 2, wherein the anti-soiling detergent composition is used in hard-surface applications.

23. (New) The anti-soiling detergent composition according to claim 3, wherein the anti-soiling detergent composition is used in hard-surface applications.

24. (New) The anti-soiling detergent composition according to claim 4, wherein the anti-soiling detergent composition is used in hard-surface applications.

25. (New) The anti-soiling detergent composition according to a claim 5, wherein the anti-soiling detergent composition is used in hard-surface applications.

26. (New) The anti-soiling detergent composition according to claim 6, wherein the anti-soiling detergent composition is used in hard-surface applications.

27. (New) The anti-soiling detergent composition according to claim 7, wherein the anti-soiling detergent composition is used in hard-surface applications.

28. (New) The anti-soiling detergent composition according to claim 8, wherein the anti-soiling detergent composition is used in hard-surface applications.

29. (New) The anti-soiling detergent composition according to claim 2, wherein the anti-soiling detergent composition is used in applications involving restrooms, washstands, baths, and other damp locations.

Preliminary Amendment
Attorney Docket No. JD-249-US

30. (New) The anti-soiling detergent composition according to claim 3, wherein the anti-soiling detergent composition is used in applications involving restrooms, washstands, baths, and other damp locations.

31. (New) The anti-soiling detergent composition according to claim 4, wherein the anti-soiling detergent composition is used in applications involving restrooms, washstands, baths, and other damp locations.

32. (New) The anti-soiling detergent composition according to claim 5, wherein the anti-soiling detergent composition is used in applications involving restrooms, washstands, baths, and other damp locations.

33. (New) The anti-soiling detergent composition according to claim 6, wherein the anti-soiling detergent composition is used in applications involving restrooms, washstands, baths, and other damp locations.

34. (New) The anti-soiling detergent composition according to claim 7, wherein the anti-soiling detergent composition is used in applications involving restrooms, washstands, baths, and other damp locations.

35. (New) The anti-soiling detergent composition according to claim 8, wherein the anti-soiling detergent composition is used in applications involving restrooms, washstands, baths, and other damp locations.

36. (New) The anti-soiling detergent composition according to claim 9, wherein the anti-soiling detergent composition is used in applications involving restrooms, washstands, baths, and other damp locations.
